Chamblee County, GA

Shared Autonomous Vehicle (SAV) Study

Description

By investing in infrastructure Chamblee MARTA station, the city aims to improve city parking situation, reduce vehicle emissions, and ensure equitable mobility. The project continues from the adoption of Shared Autonomous Vehicle Feasibility and Concept Plan Phase I. The fellow will help plan and implement public input activities associated with the operations plan. Additionally, the fellow will explore the project’s impacts on sprawl, equity, safety, and public health, while also investigating funding models, regulatory impacts, and the “unknown unknowns” of SAV’s.
